# 00MW781 – Technical Data Sheet

Lenovo · COMPONENT

## WHAT YOU NEED TO KNOW

Verify manufacturer and server generation compatibility Check if Option PN or Spare PN — same part, different channel

⚠ Confirm exact part number — similar PNs may be different parts

## PRODUCT OVERVIEW

Servers, workstations, and storage solutions based on the new Intel Xeon processor E5 family deliver the best combination of performance, built-in capabilities, and cost-effectiveness to make data centers more flexible and efficient. From virtualization and cloud computing solutions to design automation or real-time financial transactions, you'll be delighted by better than ever performance no matter what tasks you face.

<br><br>Your investment in industry standard technology from Intel combined with innovative solutions from partners help future-proof your data center with infrastructure that grows with your business.<br><br><b>Technology to scale innovative private cloud services</b><br>Today's private clouds enable greater business agility and efficiency by delivering innovative and scalable services that drive value back into the organizations they serve. Building and managing these services require systems that scale to meet your ever changing needs, while delivering solutions to t

COMPONENT DIAGRAM

KEY FEATURES

- 10MB Capacity

TYPICAL APPLICATIONS

- Enterprise virtualization host density upgrades
- Database server performance scaling
- AI/ML inference workloads
- High-performance computing (HPC) clusters

SUBSTITUTES & CROSS-REFERENCES

No substitute or cross-reference records for this part.

LIFECYCLE

No lifecycle data available.
