4XB7A13636 – Lenovo Intel S4610 1.92 TB 2.5" Serial ATA III 3D TLC NAND

Lenovo · DRIVE SFF

PRODUCT OVERVIEW

4XB7A13636: Lenovo Intel S4610 1.92 TB 2.5" Serial ATA III 3D TLC NAND.

The Intel S4610 Mainstream SATA solid-state drives (SSDs) for Lenovo servers are advanced data center SSDs optimized for mixed read-write performance, endurance and strong data protection. Compared with the Intel S4600 series, these new drives offer improved performance and lower latency. The Intel SSD S4610 drives with 3 full drives writes per day (DWD) are an excellent choice as cache in transactional application and high-speed storage for enterprise databases.

The Intel S4610 Enterprise Mainstream SATA solid-state drive is shown in the following figure. The key difference between Performance SSDs such as the S3710 SSDs, Mainstream SSDs such as the S4610 SSDs, and Entry SSDs, such as the S4510 SSDs, is their endurance (life expectancy). SSDs have a huge, but finite, number of program/erase (P/E) cycles, which determines how long the drives can perform write operations and thus their life expectancy.

Mainstream SSDs have better endurance than the Entry SSDs, but a

FREQUENTLY ASKED QUESTIONS

What is 4XB7A13636?

4XB7A13636 is a Lenovo Intel S4610 1.92 TB 2.5" Serial ATA III 3D TLC NAND manufactured by Lenovo.

What parts can replace 4XB7A13636?

There is 1 known substitute for 4XB7A13636: 01PE339. Substitute compatibility should be verified for your specific system.
